

Art and Fire Take Flight

Tammy Firefly is an internationally acclaimed performance artist who has entertained and enthralled audiences across the world, from awe inspiring aerial performances in Bali to breath-taking fire dances in Costa Rica.

With an inventive style that ranges from playful to provocative and from daring to inspiring, Tammy Firefly's acts brighten each occasion and light up the night. Her extensive repertoire is inspired by her travels and rooted in diverse training, including stage theater, circus arts, acrobatics and yoga.

Whether twisting through delicate bands of fabric or spinning high above in rings of fire, Tammy Firefly's stunning acts amaze and delight.

“ Tammy Firefly is one of the most talented, professional performers I have had the pleasure of working with. Her dedication to her craft leads her to create performances that consistently amaze audiences. Beyond her technique, her personality never fails to connect to the crowd and rouse them to cheers and applause. I have only the highest recommendation for Tammy Firefly as a performer. She is truly top notch. ”

 Adelaide, Australia

Technical Brief

The safety of performers, the audience and the venue are upheld as the highest priority. Each performance is fully insured through RJF Agencies, Inc. Tammy Firefly and her stagehands ensure that rigorous safety standards are upheld for every performance.

Rigging for aerial performance:

To rig on existing structures, an attachment point rated at least to 2000 lbs is required. For a dynamic aerial show, floor to ceiling height must be at least 18ft. Lower riggings may still allow for ambient entertainment events. We ask that you please inform us upon initial contact if the rigging point is higher than 50ft as special equipment may be required.

Portable rigging may also be provided upon request. This rig requires 30x30ft of unobstructed ground area with 19ft height clearance. This standard setup and will provide the aerialist with an 18ft rigging height and can allow for exciting aerial performances. A lower set-up option is also available and requires a 25x25 unobstructed ground area and 15ft height clearance. This arrangement will provide a 14ft rigging height which provides ample clearance for lyra or dance trapeze. Silk performances are limited at this height will not include large drops or roll downs.

Fire Safety:

Fire performance pieces are accompanied by a fire safety expert who oversees each act. Each fire performance booking through Tammy Firefly includes the presence of qualified fire safety personnel.

For additional information fire safety details and technical specifications and fire safety details, please send your email inquiry to Info@TammyFireFly.com.

Testimonials

“ Tammy Firefly is a fantastic presence on and off the stage.

Her smile, energy and vivacity make her a pleasure to work with and her attention to detail and professionalism has benefitted us on some major international events.

She knows how to hold a crowd and the authenticity of her love for performance really shines through, even in high pressure situations.

“ I am extremely pleased with the work Tammy FireFly has done for our gallery parties in the last 5 years.

She responds swiftly, coordinates any other performances and acts that we need.

She is very professional and an outstanding performer herself.

She has a lot of great connections which makes the Hawthorne Gallery parties truly memorable for our guests.
