

Insurance and Permits

The safety of performers, the audience and the venue are upheld as the highest priority. Each performance is fully insured through Speciality Insurance Agency. Tammy Firefly and her stage hands ensure that rigorous safety standards are upheld for every performance.

Fire performance pieces are accompanied by a fire safety expert who oversees each act. Each fire performance booking through Tammy Firefly includes the presence of qualified fire safety personnel.

Fuel Requirements

For interstate and international shows agent or client must source and provide one of the following.

Please arrange fuel well in advance of performance as alternate fuels may require show modification.

First preferences (in order of preference)

From Camping or hardware stores - Colemans gas

From SHELL - Shellsol T or Shellsol TK or Shellsol TD

From EXXON - Isopar M, Isopar G

ABSOLUTELY NO KEROSENE, DIESEL, PETROL OR CITRONELLA

Space

The below dimensions are optimum spaces for fire shows.

We have worked in many challenging spaces in the past and are generally able to adapt to available space. Please advice on any space restrictions when booking.

Solo show: Width: 10ft Depth: 10ft Height: 10ft

Duo show: Width: 13ft Depth: 13ft Height: 13ft

Trio show: Width: 20ft Depth: 20ft Height: 15ft

4 person show: Width: 25ft Depth: 25ft Height: 17ft

We require a reasonable backstage area suitable for costuming, makeup and equipment preparation.

Please advise of the stage surface when booking. If surface is smooth rolled out carpeting is preferred if available.

If any environment is judged to be unsafe or spacing specifications provided are incorrect we reserve the right to modify or cancel the show. In these instances a full fee will be charged.

Lighting

Please restrict any lighting to a soft wash in low level hues such as dark blue and purple, dark red or UV. Please avoid any orange, yellow or white lighting or backdrops.

Sound

For choreographed shows we require a powerful sound system and monitors as the artist's need to hear the musical cues above the roar of the flames. Performances can easily be adapted to events with live musicians.

Dressing room and Amenities

One large, well ventilated dressing room with mirrors, running water and chairs required as close as possible and with clear access to working areas. Bottled water and healthy snacks also required.

Recording devices

Advise upon booking if the event will be filmed. Permission for video and photography of the performance will in most cases be happily given upon the agreement that unedited copies of all footage and photos featuring the artistes will be delivered to Tammy FireFly within 30 days of the performance.

Material Requirements

For interstate and international shows fuel, flights, accommodation and transport will be provided by booking agent.
